

1. an-nyeong-ha-se-yo
2. It's an honor to stand here
3. Pollito was seen in Busan in 2018!
4. Thanks a lot to the great Korean local team!
5. One slide for every DebConf I took part (in person or online)
6. One slide for every DebConf I took part in (in person or online)
7. Cheating for DebConf0 where I had no image at all. Used two from DebConf1 which was at the same place
8. One image is from my holiday after DebConf since I also had no images. But it's typical for the country
9. Quiz: Who can assign the correct DebConf to the background slides?
10. BTW, please feel free to interrupt me at any time, provided you have some microphone to be heard on the video stream

└ Debian is more than a technical project

- ◆ Susan Kleinman
- ◆ Morons! I'm surrounded by morons.
— Jan May, March 1993
- ◆ Daughters and granddaughter

1. **A few words about me**
2. After Susan built four install media kernels just for me my decision for "the right distribution" was drawn
3. Just a note: I'm frequently asked about other distributions like Ubuntu. I simply can't answer competently since I never had any reason to use anything other than Debian.
4. More about this in my "Family talk" at DebConf17

└ Fears and hopes

1. If I made a mistake as packager just did a new upload
2. If I make a mistake as DPL this persists
3. Do not feel very well on stage
4. Prefer to move alone in the woods - maybe planting some trees
5. In tree planting events, I prefer to work alone in lunch break
6. In any case: thanks to Jonathan for driving Debian through troubled waters for 4 years

└ Fears and hopes

I wonder whether running for DPL is my cold turkey for my addiction to packaging.

1. If I made a mistake as packager just did a new upload
2. If I make a mistake as DPL this persists
3. Do not feel very well on stage
4. Prefer to move alone in the woods - maybe planting some trees

└ Sometimes we need patience to find solutions

1. Being patient is somehow a precondition to become a DD

└ Sometimes we need patience to find solutions

lintian

- Policy checker important for packaging
- Suggestion to check earlier in build-process (bug #1076759)
- Only statically tests source and binary packages
- Found volunteer for lintian.debian.org
- Maintainer could use more help → any volunteers?

1. Being patiently is somehow a precondition to become a DD

└ Sometimes we need patience to find solutions

tag2upload

- Pushing a signed Git tag instead of uploading a bunch of files
- Written in 2019
- Finally agreement how to deploy 2024

1. Being patiently is somehow a precondition to become a DD

└ Sometimes we need patience to find solutions

General decision making

- Sometimes its not clear who is in a team
- Its even less clear who can make decisions

1. Being patient is somehow a precondition to become a DD

2024-11-16

Bits from DPL

└ Freeze depression

1. We do not have some general person / team who cares for general bugs

└─ How to meet future?

- Few long standing DDs are (extremely) conservative in their workflow
 - Some do not use VCS (Debian archive is "VCS" ?)
 - Others use Git but not Salvo
 - Some DDs seem to think team maintenance is the end of Debian

1. so many different workflows, maintainers claim that they can work only with this workflow
2. I adapted several times to workflows I was convinced by team members (SVN, gbp)
3. *routine-update* implements this workflow
